Layout & Installation

GUIDE

Acurve Grand Flow A + B SHINE LAYOUT

- 1 Start by deciding the orientation to install this pattern in. Once that is decided, take two(2) **Grand Flow A** tiles and lay them down as seen in the diagram. Recommended grout joint width is 0.

- 2 Next, take two(2) **Grand Flow B** tiles and lay them down as seen in the diagram.

- 3 Move the Grand Flow B tiles adjacent and slightly lower to the Grand Flow A tiles as seen in the diagram.

This is the module that can be repeated to fill the space.

We recommend using painter's tape to hold the module together for positioning.
